TECHNIQUE & QUALITY

Quality is the life, and technique is the engine of a progressing enterprise. Our company sends more than RMB 5million annually as research and development fund. we have the perfect equipments for testing and developping, and now we increase more testing equipments for raw materials to ensure the stable quality of the products. We are the first company who uses the auto brake lining flow line technique from Germany.

Each brake lining will be tested by many steps in the process before leaveing factory, in order to keep each piece is qualified. we sell more than 10 high-grade formula products to all of the world. also we passed the certification of ISO/TS16949:2002& ISO9002.

PRODUCTS

As a professional manufacturer of brake lining & pad, we have various models and formulas, both non-asbestos and asbestos, which can meets client's requirements. We have the products for different types of vehicles for European, American, Japanese, and Russian. Our products also have the advantages in its good appearance, stable quality, good effect in braking, and no noise, no pollution, long life. But the price is competitive.

And meanwhile, our research team can supply many items and fomulas to meet client's different requirements.
